

TITO HALFIAN

+62 813 9141 1690

titohalfian75@gmail.com

Pati, Central Java, Indonesia

Electronics Engineering with a strong foundation in industrial automation, control theory, and the Internet of Things (IoT). Experienced in developing real-time monitoring systems with a strong interest and focus on data acquisition. An adaptable fast-learner eager to collaborate with experienced professionals to deliver efficient, industry-ready technological solutions.

EDUCATION

- | | | |
|--|---|-------------|
|  | Politeknik Negeri Semarang
Diploma 3 in Electronics Engineering | 2023 - 2026 |
|  | SMK Negeri 2 Pati
Audio Video Engineering | 2020 - 2023 |

WORK EXPERIENCE

- | | | |
|--|--|---------------------------|
|  | PT. Innovasindo Smart System
Industrial Management & Monitoring Intern | September - December 2025 |
| <ul style="list-style-type: none">Contributed to the evaluation and deployment of smart industrial monitoring systems.Assisted in optimizing data flow for industrial management applications.Assisted in the development of a Solar Power Plant (PLTS) monitoring system. | | |
|  | Gemeces Auto Variasi
Automotive Electrical Assistant Intern | 2022 |
| <ul style="list-style-type: none">Installed and integrated aftermarket car accessories and electronics.Diagnosed and resolved vehicle electrical system issues. | | |

TECHNICAL PROJECTS

- | | | |
|---|--|------|
|  | Solar Power Plant (PLTS) Monitoring System | 2025 |
| <ul style="list-style-type: none">Developed a comprehensive monitoring system to track and analyze energy generation data in real-time. | | |
|  | Multi-Sensor Telemetry Dashboard | 2025 |
| <ul style="list-style-type: none">Built a comprehensive data visualization platform using Node-RED and Arduino.Transmitted real-time sensor data (wind speed, temperature, humidity) via JSON to a centralized dashboard. | | |
|  | AC Efficiency Optimization System using ESP32 | 2025 |
| <ul style="list-style-type: none">Developed an IoT-based system utilizing ESP32 to monitor and optimize air conditioning (AC) energy efficiency.Integrated ADS1115 and ACS712 current sensors to precisely track power consumption and automate energy-saving adjustments. | | |

SKILLS

Technical: Microcontroller Programing, Proteus Simulation, Internet Of Things System, Data Acquisition, Circuit Wiring, SCADA/HMI.

Soft Skills: Problem Solving, Adaptability, Teamwork, Communication.

Language: English, Indonesia.
